

STATOTHR

The General Counsel
Central Intelligence Agency
2430 E. Street N. W.
Washington, D. C.

Dear Sir:

I am inquiring into the opportunity for a position as attorney with the Central Intelligence Agency upon my graduation from Harvard Law School in June 1954.

Such a request at this time I realize may be inopportune due to the relatively long period between the present date and next June. However, could you inform me of the potentialities that may exist as of June, as well as the proper procedure to follow regarding applications.

In conjunction with this request, if it is not too much trouble, could you further enlighten me on the affairs and duties of a lawyer with your Agency. My particular bent is international law. From what I have been given to understand this is the area with which you are concerned.

Yours very truly,

STATOTHR
